Spring Valley Lake Association

Victorville, California 92395-5107

Dear Members of the Spring Valley Lake Association:

This version of the Rules and Regulations will replace the 2007 version.

Rules and regulations give everyone a framework for homeowners to maintain and enhance the appearance and economic value of their property, as well as guidelines for actions that impact appearance, enjoyment and safety of our amenities and common areas.

Several years ago a committee of homeowners began the process of revising our Rules and Regulations. The General Manager, Public Safety Department, Staff, the Board, and various committees also proposed additions, deletions, or modifications based upon changes in the law and in operations. Proposed revisions were made available for homeowner comment. In addition, homeowners were given the opportunity to give input at a Board Workshop. The Rules and Regulations were revised based upon homeowner comments and homeowners were given another opportunity to comment. The Rules and Regulations were also reviewed by homeowner association legal counsel. Thank you to everyone who contributed to the new Rules and Regulations, from taking time to make comments, to typing the new document.

It is our goal that as rules and regulations are created or modified, the changes would be incorporated into this document. This document will be continually updated. Even now, with the new Rules and Regulations document becoming effective, there are several rules that are currently being reviewed by committees, the Board and staff. Please continue to participate and give feedback as new or modified rules are proposed.

15.7.3.2. The Address Envelope is addressed to the Inspector. The Address Envelope can be mailed by the member to the Inspector or delivered by hand to a location specified by the Inspector. Any member can request a receipt for delivery of their ballot.

15.7.3.3. Ballots distributed to each and every member shall identify the proposed action, provide an opportunity to specify approval or disapproval and provide at least thirty (30) days upon which to return the ballot to the Inspector. The voting instructions contained within the ballot materials will show a date by which the ballots must be delivered to the location designated by the Inspector by either the United States Postal Service, overnight delivery service or hand delivery.

15.7.3.4. For elections to the Board of Directors, ballots must be returned to the Inspector at the close of business on the day prior to the annual meeting, at which point the polls will close and no further ballots will be accepted. 15.7.3.5. All votes shall be counted by the Inspector starting six (6) hours prior to commencement of business at the annual meeting, in an open setting allowing members and candidates to witness the counting and tabulation of the votes. The

inspector(s) of election can cause the removal of any observer who causes interference with or disrupts the counting or tabulation process. Once the inspector(s) of election have finished counting, the inspector(s) of election will thereafter announce the results of the election for Board of Directors during the annual meeting. No person, including any member of the Association or an employee of a management company, shall open or otherwise review any ballot prior to the time and place at which the ballots are counted and tabulated by the Inspector.

15.7.3.6. Written ballots may not be revoked once they are submitted to the Inspector.

15.7.3.7. Incumbent Directors will be listed first on the Notice of Meeting and ballot itself. Subsequent non-incumbent candidates' names will be listed next in alphabetical order.

15.8. The balloting process for amendments to governing documents shall be submitted to the membership in a similar manner as the election for the Board of Directors, except that:

15.8.1. The addressed envelope should include a statement above the signature line by the owner which would provide, to comply with the governing documents, the following words: *By signing below, my vote shall act as my written approval or, if applicable, my written disapproval of the pending ballot measure.*

15.8.2. The tabulation and counting of the votes by the Inspector shall be conducted six (6) hours before commencement of business at a properly noticed open meeting of the Board of Directors. No person, including any member of the Association or an employee of a management company shall open or otherwise review any ballot prior to the time and place at which the ballots are counted and tabulated by the Inspector.

15.9. **Lost Ballots.** If the owner loses his/her ballot, they may request another ballot, along with the appropriate envelopes from the Inspector, but they must sign a statement, under penalty of perjury that the original ballot was either lost, destroyed or never received. The Inspector shall maintain a record of each such request and, if it is determined that the owner voted twice, even by mistake, neither ballot would be counted.

15.10. **Election results.** The results of any election shall be promptly reported to the Board of Directors and shall be recorded in the minutes of the next Board meeting and shall be available for review by members of the Association. Within fifteen (15) days of the election, the Board shall publicize the results of the election in a communication directed to all members (this could be done in the form of

Spring Valley Lake Association

Rules and Regulations

15.11. Use of Association Funds Relating to Elections. Association funds should not be used for campaign purposes in connection with any Association election, except to the extent necessary to comply with the duties of the Association imposed by law. For purposes of this paragraph, the Association can use its funds to have corporate counsel (or other Board-designated individuals) prepare and review appropriate ballots as well as the copying, printing and mailing costs necessary to provide the ballots to the membership consistent with the Association's governing documents and California law. Association can also add background information and explanation of ballot material. The Association may use funds to distribute, for election of Board of Directors, a biographical description and photograph of the nominees within said election materials. The Board shall not advocate the election or defeat of any candidate that is on an Association election ballot for the Board of Directors.
